HELPING OTHERS

## ABOUT ME

Passionate Software Engineer with expertise in Angular, TypeScript, React / Next JS and modern front-end tools like Tailwind, Prime NG, Material, Bootstrap, and responsive design. Experienced in building scalable web apps, integrating RESTful APIs, and contributing to full-stack projects with C#, Node.js, and SQL. Familiar with DevOps pipelines using Azure, Jenkins and Docker. Committed to clean code, continuous learning, and collaborative development.

## EXPERIENCE

### 1DATAGROUP TECHNOLOGIES

Oct 2025 - Now

### SINGULAR LOGIC S.A

Apr 2023 - Oct 2025

### COGNITY A.E

Feb 2022 - Apr 2023

## EDUCATION

### UNI OF WEST ATTICA

Oct 2015 - Apr 2021

## CERTIFICATIONS

### UDEMY

Dec 2024 - Mar 2025

### BITDEGREE

Oct 2021 - Jun 2022

### FREECODECAMP

Jan 2022 - May 2022

### REGENERATION

Oct 2021 - Dec 2021

### CODE + CREATE (GFOSS)

Mar 2020 - May 2020

### ANGULAR DEVELOPER / FULL STACK

Modernising a large-scale eBanking platform, migrating legacy AngularJS to the latest Angular. Complex banking workflows across payments, transfers, approvals and multi-step transactional journeys. Figma designs turned into responsive, production-ready interfaces. .NET BFF integrations, unit testing and Azure DevOps pipelines.

### ANGULAR DEVELOPER / DEVOPS ENGINEER

Angular platforms across travel authorization, ticketing, eCommerce, government and fuel management. Reusable templated frontends with custom components and integrated REST APIs. Led the EuroElections 2024 upgrade from Angular 7 to 18 with Angular Signals. NgRx state, responsive design, Jenkins, Docker and CI/CD.

### ANGULAR DEVELOPER / TEAM LEADER

Refactored a legacy ASPX banking system into a modern Angular UI. Led an Angular insurance sales platform through to stable production. Code reviews, frontend standards and mentoring junior developers.

### INTEGRATED MSC, DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Thesis: "Develop a web app for online project management" — [polynoe.lib.uniwa.gr/11400/740](https://polynoe.lib.uniwa.gr/11400/740)

### GITHUB ACTIONS - THE COMPLETE GUIDE

### JENKINS, FROM ZERO TO HERO

### DOCKER & KUBERNETES: THE PRACTICAL GUIDE

Across the three: automation, CI/CD pipelines, Docker and Kubernetes.

### FRONT-END ACADEMY (960 HRS)

HTML/CSS, JavaScript ES6, responsive design, SQL/NoSQL.

### JAVASCRIPT ALGORITHMS & RESPONSIVE WEB DESIGN

ES6, OOP, functional programming, Flexbox, Grid, accessibility.

### ACADEMY ON CLOUD TOOLS & TECHNOLOGY (240 HRS)

C# / REST API and Azure cloud fundamentals.

### WEB DEV COURSE (104 HRS)

HTML, CSS, JavaScript, Bootstrap, Angular. Awarded Most **Helpful**, **Committed** and **Driven**.
